Certificate Pack.

OPTIONS

Spares Kit.
Additional Blades.

Description

The Webtool 54mm cutter is a hydraulically operated tool for cutting soft and Fibre lines. It has a lightweight aluminum and stainless-steel construction.

The tool can be easily operated by an ROV, with the compliant handle fitted, due to open sided design enables the tool to be easily positioned on the line to be cut.

The long life of the blade reduces downtime for maintenance and cost of repairs.

The reasonably small size of the 54mm cutter also makes it perfect for use in confined spaces.

Overall Specifications	
Weight in Air	4.7 Kg
Dimensions	L150 x W56 x H406mm
Input / Outputs	
Max Input Pressure	210 Bar (3,000 PSI)
