- Can be used at any water depth

### WHATS INCLUDED

- Secateur Cutter
- ROV handle
- Operational Hoses
- Manual
- Cert Pack

### OPTIONS

- Intensifier
- Spare Blades

### Description

The Holmatro Secateur cutter is an industrial cutter specially designed for a wide range of diverse applications which we have converted for ROV use.

It is lightweight, user-friendly and ergonomic. It has a flat lever hinge pin construction enabling optimum reach.

An ideal tool for scaffolding tubes, rebar, banding straps, wire ropes and anode bolts.
