PRODUCT CODE

RQ-151

Key Features

- Cleans a 18-3/4" VX Ring Gasket.
- Replaceable Abrasive Pads.
- ROV D-Handle.

Description

The Aleron AX/VX Gasket Cleaning Tool is designed to remove soft marine growth, debris, surface rust and other loose material from the wellhead interface which seals against a 18-3/4" VX ring gasket.

Eight replaceable abrasive pads are used to remove material from the seal surface.

The D-handle attached also allows the ROV to handle and maneuver it easily onto the cleaning site.

Hydraulic Motor Input

Pressure	210bar (3,000 PSI)
Flow	Up to 75 LPM
Weight in Air/Water	40kg / 26.3kg
